

Isuzu Quick Guide for Core Returns/Destructions

Core charges and returnable shipping skid core charges (specific to remanufactured engine purchases only) for engine models and long blocks when applicable:

Models/Long Blocks	Core Charge	¹ Core Credit Reimbursement Criteria	² Returnable Shipping Skid Core	Return / Destruction Requirement
C240	\$2,500	100/0	-	Destroy
2CA1	\$1,000	100/0	-	Destroy
3CA1	\$1,000	100/0	-	Destroy
3CA1T	\$1,000	100/0	-	Destroy
3CB1	\$1,000	100/0	-	Destroy
3CD1	\$1,000	100/0	-	Destroy
3CE1	\$1,000	100/0	-	Destroy
3LB1	\$1,000	100/0	-	Destroy
3LD1	\$1,000	100/0	-	Destroy
3LD2	\$1,000	100/0	-	Destroy
4BB1	\$2,500	100/0	-	Destroy
4BD1	\$2,500	100/0	-	Destroy
4BD1T	\$2,500	100/0	-	Destroy
4BG1	\$2,500	100/0	-	Return - AER
4HK1	\$5,000	100/50/0	\$1,500	Return – AER Temp
4JB1	\$1,000	100/0	-	Destroy
4JG1	\$1,000	100/0	-	Destroy
4JG2	\$1,000	100/0	-	Destroy
4JJ1	\$4,000	100/0	-	Destroy
4LC1	\$2,000	100/0	-	Destroy
4LE1	\$2,000	100/0	-	Destroy
4LE1T	\$2,300	100/0	-	Destroy
4LE2	\$2,000	100/0	-	Destroy
6BD1	\$4,500	100/0	-	Destroy
6BG1	\$3,500	100/0	-	Return - AER
6HK1	\$8,000	100/50/0	\$1,500	Return – AER Temp
6RB1	\$8,000	100/0	-	Return
6SD1	\$8,000	100/0	-	Destroy
6UZ1	\$10,000	100/50/0	\$1,500	Return - PPP
6WG1	\$10,000	100/50/0	\$1,500	Return – PPP

Footnotes:

¹ Partial (100/50/0) core credit reimbursement criteria will be subject to like-for-like engines only or an acceptable alternative as approved through the ISZAPT Service Department specific to products either in production at the remanufacturing facility or planned for future roll out in the remanufacturing program. Core credit reimbursement parameters are defined within the "Engine Core Acceptance Criteria" and "Isuzu Reman Engine Core Return Instructions" documents. It is also important to note warranty-related core returns will be credited 100%; warranty verification will be confirmed by the ISZAPT Service Department.

²Units sold through the Isuzu Reman program are subject to an additional core charge. This core is for the returnable packaging the unit is shipped on. The core should be returned on the racking originally provided with the remanufactured unit and the credit will be issued during the core return processing administrative process. The remanufacturing facility will confirm receipt of the rack at the time of initial inspection of the core.
